

## Technical datasheet

### Partial Filter and Cartridges

#### Introduction

Partial Filter in polyethylene with brass inserts in inlet and outlet.

For use in systems with high TSS values. Implementation of side stream filtration is optional. In systems where the option of side stream is exercised, filter change is implemented in on-site service pack.

OTS item number.: 9000-

#### Features

- Suitable
- Variable
- Filter cartridges in polyester
- Filter cartridges; 10 pieces in a package

#### Safety features

- Fitted
- PTFE

#### Capacity & performance

|                    |               |
|--------------------|---------------|
| Type of fluid:     | Cooling water |
| Max temperature:   | 30°C          |
| Max pressure:      | 8 bar         |
| Filter cartridges: | 60 µm         |
| Cirk. Flow         |               |
| In/Out connection  |               |

#### Weight & dimensions

|              |
|--------------|
| Length       |
| Width        |
| Height       |
| Gross Weight |
|              |
