

Technical datasheet

Oil Analysis

Introduction

Contamination by the particle counting method using the following analyses:

ISO 4406:1999:

- Laser Particle analysis
- Coding the level of contamination by solid particles.

ISO 4407:2002

- Microscopic analysis

The analysis is obtainable with a report or without a standard lab conclusion.

OTS item number.: 11000,-11001

Features

- Can be delivered with or without conclusion
