

Technical datasheet

OTS. Hydraulic Pressure Testing Unit.2000-30000

Introduction

The OTS Pressure Testing Unit is pneumatically powered

The unit has wheels for easy transport and is designed especially for, but not limited to, water, chemical, lube-& hydraulic oils for oil and gas production enhancement.

The unit is constructed and approved to meet all requirements of hydrostatic pressure testing using water.

OTS item number.: 9000-094

Features

- Fitted with Keller Logger system
- Unit has wheels for easy transport
- Extremely low maintenance
- Ready for hook-up to water and air supply
- Fitted with 1/4" high pressure connection

Capacity & performance

Air driven pressure	0 - 10 bar
Outlet pressure at 10 bar	2000 bar
Connection	1/4" BSP
Volume	0,49 l/min

Safety features

- Air control unit with pressure regulating valve

Weight & dimensions

Length	1300 mm
Width	650 mm
Height	1370 mm
Gross Weight	110 kg
