

Technical datasheet

Tool bag 80Kg

Introduction

A tool bag made for daily inspections and to lift spare parts and service equipment up in the wind turbine.

The bag has a service life of 5 years. The bag is subject to inspections every 6 or 12 months, as any other lifting equipment.

OTW item number: 2000005

Features

- Bottom cover is made from tarpaulin that has a rubber coating at the edge to prolong the life of the cover.
- Hard bottom is made out of plastic to make the bag keep its shape and prolong the life of the bag.
- Hard bottoms can easily be replaced.

Capacity & performance

volume	115 l.
Work Load Limit (WLL)	80 kg.

Safety features

- Made of PVC-black flat coated material.
- Lifting straps made from high quality double plain nylon.
- The bag has handles mounted on both sides for easy handling.

Weight & dimensions

Length	600 mm
Width	350 mm
Height	750 mm
