

Technical datasheet

Filterunit "OTS.0256.CIRK"

Introduction

The unit is driven by a 220V 0,75w electrical motor.

The pump have a circulation flow on 25 ltr/min. through 3 mic and water absorb filters. The unit can be used to transfer oil from one tank to another with og without filters, or just circulate hydraulic oil from the oil tank through the filters and back into the tank again, (offline filter) this will keep the oil clean.

OTS item number.: 9000-104, -105

Features

- Articulated wheels mounted for site mobility.
- Independent of site service.
- Visual differential pressure indicator on both particle and water absorb filters.

Capacity & performance

Cirk. Flow rate	25 Ltr./min.
Cirk. Pressure	Max. 5 bar
Filter capacity	120 Ltr.

Safety features

- Safety check valves fitted as standard 5 bar.

Weight & dimensions

Length	400 mm.
Width	600 mm.
Height	1100 mm.
Gross Weight	50 Kg.
