

Technical datasheet

OTS. Hydraulic Pressure Testing Unit 1700.0,1.

Introduction

The OTS Oil Pressure Testing unit is pneumatically powered

It is a compact unit suitable for small spaced areas and specifically designed for lube & hydraulic oil systems.

Also designed to meet all requirements for hydrostatic pressure testing of different types of process systems; such as pipes, vessels, heat exchangers, coolers etc.

OTS item number.: 9000-082

Features

- Small unit suitable for small spaced areas
- Fitted with an 8 litre oil tank
- Extremely low maintenance requirement
- Ready for hook-up to air supply
- Fitted with 1/4" high pressure connection

Capacity & performance

Air driven pressure	1-8 bar
Outlet pressure at 8 bar	1700 bar
Volume	0,1 l/min

Safety features

- Air control unit with pressure regulating valve
- Control pressure gauge and shut-off valve

Weight & dimensions

Length	440 mm
Width	400 mm
Height	450 mm
Gross weight	30 kg
