

Technical datasheet

Varnish Test Kit.

Introduction

On-site Varnish Test Kit (VTK).

Condition monitoring is critical ahead of lube oil degradation issues. This Varnish Test Kit provides on-site access to laboratory grade Membrane Patch Colorimetric (MPC) testing as a key piece in predicting potential varnish problems before unit trip or fail to start.

This equipment provides you the fastest result to understand the status of your fluid.

OTS item number.: 9000-463

Features

- 100 ml. for analysis
- Packed in transport box
- Fast result

Capacity & performance

ML. for sample	100 ml.

Documentation.

- Report with photo documentation

Weight & dimensions

Length	660 mm
Width	490 mm
Height	350 mm
Gross Weight	20 kg
