

Technical datasheet

Filter Unit "OTS.SE-100.ALU"

Introduction

The SE system is connected as a bypass and has its own motor pump combination, making the SE series system suitable for pressure less applications. The SE pumps the oil through the filter housing, then back to the tank with a pressure less return.

- Extends the life of all hydraulic components, such as pumps servo valves and seals
- Extends the life of the oil
- Extends the service life of standard filters
- Reduces maintenance costs
- Reduces oil consumption
- Reduces machine downtime

OTS item number.: 9000-533

Features

- 10-180 cSt.
- 20-80 C
- Max pressure 6 bar.
- For systems up to 800 l.
- Stb. Filter M-100

Safety features

- Relief
- Gauge
- Gaskets according to oil type.
- Frame SS316
- ALU housing

Capacity & performance

Pressure	6 bar
Cirk. Flow	2,5 L / min
In/Out connection	10L cutting ring
EI-motor power maximum viscosity	220 V

Weight & dimensions

Length	230 mm
Width	390 mm
Height	460 mm
Gross Weight	18 kg
