

## Technical datasheet

### Kirasol 360

#### Introduction

OTW item number.: 12014

**KIRASOL-360** is a high speed cleaner that will safely remove carbon products, vegetable oils, lubricants, synthetic coatings, polymeric binders, grime and many other contaminants that are difficult to remove even with petroleum based cleaners. After use the contaminants phase separate and can be removed allowing the cleaner to be reused.

#### Before cleaning

Example  
Removal of polymer  
residues with KIRASOL-360

#### After cleaning

#### Capacity & performance

Physical state	Liquid
Odour	Characteristic
Colour	Light-brown
Boiling temp/range (1013 hPa)	100°C

#### Weight & dimensions

Flash Point	62°C
Density (25°C)	0.952 ±0.05 g/cm <sup>3</sup>
PH Value (25°C)	10 ± 1.00
Watersolubility(20°)	100 Wt %
