

Invitation - UK Oil & Gas and Wind Industry Operators

FILL FOR LIFE SEMINAR

Considering your lubricants an asset, replenishing the anti-oxidant system and removing oil degradation products will benefit the cost effectiveness of the company maintenance department.

Fill for life is a technical seminar hosted by Vattenfall, Fluitec and Ocean Team Fluidcare UK, sponsored by the British Embassy.

We aim towards broadening the horizons of Oil & Gas operators in the UK, as well as operators of the UK wind industry and OEM's of both parties, but alike are welcome to register and attend this full day free seminar taking place at the Hilton Aberdeen Treetops, UK, on November 9, 2016.

The oil seminar addresses how companies obtain a competitive advantage on their maintenance practice by reactivating oils and their additives.

FILL FOR LIFE - IS POSSIBLE:
Replenishing the antioxidant system and removal of oil degradation products

YOUR ORGANIZATION'S SUSTAINABLE INITIATIVES:
-are enhanced. The amount of emitted greenhouse gasses are reduced measurably

CONSIDER LUBRICANTS AN ASSET:
Transforming oils into Fill-for-Life fluids reduces O&M costs

ADDITIVE REPLENISHMENT MUST BE DONE IN A SAFE MANNER:
Safety lowers the risks with managing oils

Fluitec
Has operated in +20 twenty years and has clients in over 65 countries. Fluitec's expertise is in rotating equipment lubrication. Their RULER device is a widely used method for measuring the antioxidant health in lubricants and greases. Their ESP Technology is the industry's leading solution to lube oil varnish. Their fluid platform introduces new chemistries to re-service oils to improve their performance and extend their life.

Ocean Team Fluidcare UK
Ocean Team Group was founded in Esbjerg, Denmark in 1995 and is one of the world's leading suppliers of total purity systems serving the on and offshore energy industry, including the oil & gas, offshore, marine, wind turbines, power plant, and refineries sectors.
Ocean Team Group operates internationally to provide specialized purification services of technical fluid and fluid carrying systems. Customized purification systems for the hydraulic, lube oil and process systems for the energy, heavy industry and maritime sectors are developed to avoid service to clients globally.

Vattenfall
Vattenfall is a European energy company with approximately 28,000 employees. Together they produce heat and electricity from six energy sources: wind, hydro, biomass, nuclear, coal and gas.
Vattenfall Petroleum Chemistry Laboratory in Sweden, founded in 1957, is an independent actor on the analyst market. Their core business includes analyses from hydraulic oil, transformer oil and gas, lubricant oil, oil used on the nuclear market, hydro-, wind-, and heating industries as well as in electrical installations.

FILL FOR LIFE DIFFERENTIATE
your company from your competitors with increased reliability and lower costs.

Ocean Team Group has invited Vattenfall and Fluitec, establishing a 'one-stop-shop' for providing a cost-efficient, reliable and unique technology, from analysis via vendor to service provider.

The technical seminar appeals to maintenance, construction and operations departments in the oil and gas, power plant and wind industries.

What you will learn:

- How to determine the end of your oil's useful life.
- What are the most accurate and best value oil analysis tests and how you can optimize your condition monitoring program.
- Why oil fails, how you can detect this failure mode and what you can do to minimize lubricant related failures and downtime.
- How you can double or triple the life of your oils.
- When to consider flushing and best practices for oil conversion.
- How proper lubricant management can increase your bottom line.

The Fill-for-Life seminar provides the latest technical information on a market catalyzed to reduce costs: Longer-lasting and higher-performing oil assets transferring increased reliability and lower O&M costs to your company.

TIME	EVENT	WHO / WHERE
9th of November	Fill For Life	Hilton Treetops, 161 Springfield Road, Aberdeen
08:30-08:45	Registration	Foyer to Cedar Suite
08:45-09:00	Introduction / Welcome	Jens Peder Thomsen, OTG
09:00-10:00	Oils and their Formulations	Russell Craddock, Flutec
10:00-10:20	Coffee and Tea Break	Foyer to Cedar Suite
10:20-11:00	How Oils Degrade	Russell Craddock, Flutec
11:00-12:00	A few Thoughts on Oil Analysis	Kenneth Arvidsson, Vattenfall Mikael Wassner, Vattenfall
12:00-13:00	Lunch	Foyer to Cedar Suite
13:00-14:00	Extending Life of In-Service Oils	Russell Craddock, Flutec
14:00-14:20	Coffee and Tea Break	Foyer to Cedar Suite
14:20-16:00	Flushing, Oil Conversion and Grease Replenish	Jens Peder Thomsen (OTG)
16:00-17:00	Case Studies	Russell Craddock, Flutec Mikael Wassner, Vattenfall Jens Peder Thomsen, OTG
17:00-19:00	Get-Together-Bar	At the bar. OTG is host for a refreshment

FILL FOR LIFE PROGRAM

Jens Peder Thomsen
Founder, MD and co-owner of Ocean Team Group of Companies.
Jens Peder has worked extensively with fluid transfer systems in +32 years inclusive proven innovations and customized solutions to clients.

Kenneth Arvidsson
Head of Department, Petroleum Chemistry, Vattenfall.
Kenneth has over 30 years' experience of Management from industry production, installation and maintenance in companies like Caterpillar, ABB and Alko Nobel.

Mikael Wassner
Senior Chemical Analyst, Vattenfall.
Mikael has over 30 years' experience performing oil analyses. Laboratory Manager and Lubricating Analyst at SHELL is included in his references.

Russell Craddock
Sales and Distribution Manager Europe for Flutec. He has worked in sales leadership roles in industrial chemicals businesses throughout Europe and the Middle East for nearly 30 years. He has enjoyed significant success in delivering technical solutions to customers across a wide range of industries from power generation to plastics, automotive to food manufacturing.

This Technical Seminar is Free

The partners aim to bring to your attention a unique technology with which our clients can achieve cost savings. The 'one-stop-shop' partners for oil care consists of Vattenfall for oil analysis relative to machine condition, Flutec as the product vendor and OTG as the service vendor.

Register your seat

Vattenfall, Flutec and Ocean Team Group are very excited to bring this event to the UK. Seats are limited so please secure your space at the event (first come first served).

Please register yourself and your colleagues to Bonna Bech at Ocean Team Group: bnb@oceanteam.eu
